

Selenè Designer Frameless Glass Showers

Product Features

- A designer mix-and-match Frameless Glass Shower and Panel system (with or without a Door) for a competitive price alternative to custom designed showers, without compromising the finished look or quality.
- Various sizes and layouts are available as complete showers, or individual components can be used in combination with custom-sized Side Panels.
- 10mm Toughened Safety Glass which is manufactured to AS/NZ 2208 safety glass standards.
- Aluminium Channel in size options of 18x18, 15x18 and 15x25mm will allow for walls and floors slightly out of level and provide strength for a rigid system.
- Various handles or knob options in Chrome Plate or Satin Chrome finish.
- Polished Stainless Shower Braces are available for additional strength and easier installation.

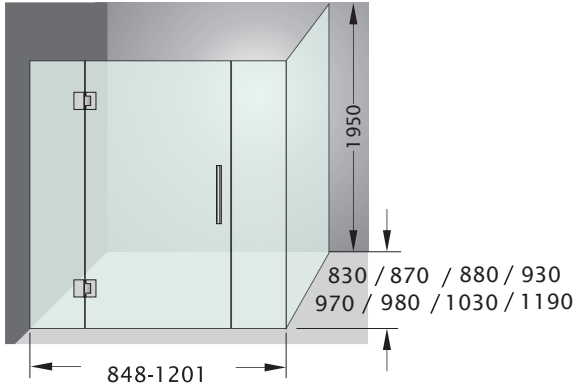

For a Glass Size Selection Guide, please refer to Technical section of our website.
